

# Operating Instructions

**This appliance is intended for household use only.**

Bed Head® styling irons are designed for safety and performance. This appliance has a polarized plug (one blade is wider than the other). As a safety feature, this plug will fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. **DO NOT** attempt to defeat this safety feature.

## CERAMIC

Ceramic is professionally preferred for its high heat that preserves hair's natural moisture for styles without "frizz." The easy-to-clean barrel emits high, constant heat to penetrate hair follicles quickly and retain natural moisture while minimizing damage for soft, luxurious styles.

## TOURMALINE

The easy-to-clean barrel with tourmaline gemstone emits maximum hair-conditioning ions and far-infrared heat, helping hair retain its own moisture for soft, sleek styles in a fraction of time.

## Automatic Shut-off

Your styling iron has an Automatic Shut-off feature. Should you forget to turn off the styling iron, it will automatically shut off after an hour.

## Automatic Worldwide Dual Voltage

This appliance will automatically adjust to the proper voltage. In North America, connect the plug into any outlet. Outside North America, use a plug adapter attachment of the proper configuration for the appropriate power outlet.

## Styling Hints

- Your Bed Head® styling tool is ideal for creating gorgeous spirals in all hair types.

- Hair should be clean and dried completely before using any styling tool.
- Plug your styling iron into an electrical outlet. Push the "On" button and wait for the flashing ready light. Select the dial setting best suited for your hair type. (See guidelines under "Heat Control.")
- Push the "Off" button and unplug the styling tool after styling is complete.
- Allow the hair to cool before combing or brushing.
- Your styling iron has an Automatic Shut-off feature. Should you forget to turn off the styling iron, it will automatically shut off within an hour.

## Heat Control

**IMPORTANT:** When using the styling iron for the first time, select the **LOWEST** heat setting and test in one small section of hair for 5 to 8 seconds. If you want to use a higher setting, be sure to **GRADUALLY** increase the temperature. Never style hair for the first time on a high setting as this may damage your hair. Use only as much heat as you need for effective styling. Over time, using more heat than is necessary can result in hair damage. For best results, follow the guidelines below:

HAIR TYPE	HEAT LEVEL
Fine, thin hair	LOW
Wavy to medium hair	MEDIUM
Thick, hard-to-style hair	HIGH

**GET  
THE  
LOOK!**

1. **PREP**  
Get your hair ready for massive volume and long-lasting springy styles. Before styling, spray Bed Head® Queen for a Day Thickening Spray throughout damp hair to thicken and condition. Blow-dry as desired and section hair in small pieces.
2. **STYLE**  
Take a small section of hair and put the end under the clamp. Hold the spiral iron at a vertical angle and rotate it while wrapping the hair tightly between the spiral guides. Hold your Bed Head® High-Def Spirals™ Iron in this position for a few seconds, depending on your hair type. Release the clamp and pull the iron out from the center of the curl. Repeat the process until desired look is achieved.
3. **FINISH**  
To help set the spirals, curl each section of hair around the finger to relax the texture and create separation. Loosen up curls by gently shaking.

# IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

**READ ALL INSTRUCTIONS BEFORE USING.**

**KEEP AWAY FROM WATER.**

**DANGER:** As with most electrical appliances, electrical parts are electrically live even when the switch is off.

**To reduce the risk of death by electric shock:**

1. Always "unplug it" immediately after using.
2. **DO NOT** use while bathing.
3. **DO NOT** place or store appliance where it can fall or be pulled into a tub or sink.
4. **DO NOT** use near, place in or drop into water or other liquid.
5. If an appliance into water, "unplug it" immediately. **DO NOT** reach into the water.
6. **DO NOT** use an appliance whose cord has become twisted, bent or otherwise damaged.

**WARNING:** To reduce the risk of burns, electrocution, fire, or injury to persons:

1. An appliance should never be left unattended when plugged in. Turn off the switch and unplug the electrical cord when not in use.
2. Close supervision is necessary when this appliance is used by, on, or near children or individuals with certain disabilities.
3. Use this appliance only for its intended use as described in this manual. **DO NOT** use attachments not recommended by the manufacturer.
4. Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has

been damaged or dropped into water. Return the appliance to a service center for examination and repair.

- NOTE:** Helen of Troy L.P. does not have an authorized service center. However, if this appliance is still under warranty, return it to the Helen of Troy Consumer Service Department for replacement.
5. Keep the cord away from heated surfaces. **DO NOT** pull, twist or wrap the cord around the appliance.
  6. Never use while sleeping.
  7. Never drop or insert any object into any opening.
  8. **DO NOT** use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
  9. This spiral iron and clamp are hot when in use. **DO NOT** let eyes and bare skin touch heated surfaces. Use the handle.
  10. **DO NOT** use an extension cord with this appliance.
  11. **DO NOT** place the heated appliance directly on any surface while it is hot or plugged in. Use the stand provided.
  12. Attachments (when furnished) may be hot during use. Allow them to cool before handling.
  13. **DO NOT** operate this appliance with a voltage converter.

## SAVE THESE INSTRUCTIONS

### USER MAINTENANCE INSTRUCTIONS

Your appliance is virtually maintenance free. No lubrication is needed. Keep heated surfaces clean and free of dust, dirt, and hair spray. If cleaning becomes necessary, unplug the appliance from the power source and wipe the exterior with a damp cloth. If the cord becomes twisted, untwist prior to use.

### WARNING:

If any malfunction occurs, **DO NOT** attempt to repair it yourself. This appliance has no user-serviceable parts.

### STORAGE

**When not in use, "unplug it."** Allow appliance to cool and store out of reach of children in a safe, dry location. Never wrap the cord around the appliance since this will cause the cord to wear prematurely and break. Handle cord carefully for longer life and avoid jerking, bending sharply, twisting, or straining cord, especially at plug connections.
